

International Manufacturers, Productivity and Trade Policy

Are you wondering what the buzz is about productivity growth and the increasing number of new American producers? Come get an update on the changing world of US auto manufacturing and the impact of new American producers such as traditional Japanese, and German carmakers on US competitiveness? Be sure not to miss this timely discussion as policy makers begin to reassess their view of the US auto industry. Consumers for World Trade invites you to join us for a discussion on the growth of new American producers in automobile manufacturing.
